Graphing Calculator: A graphing calculator is required for this course. If you already have a graphing calculator, you may use it. Examples of highly recommended models are the TI 83/84 or TI *n*-spire or Casio 9850GB Plus. Calculators with QWERTY keyboards or those that do symbolic algebra, such as the Casio FX2, Casio 9970Gs, TI-89, or TI-92 **cannot** be used in class or during an exam.

Exams: You will take three exams during the semester.

- **The best possible preparation of them is regular attendance and completion of assigned homework.**
- These exams are to be completed outside of regular class time in the [Mathematics Department Testing Center](#) in PS-A21 (basement)
- To be admitted to the Testing Center each student must have a valid ASU Sun Card.
- The testing center is open 9:00 a.m. - 6:30 p.m. M-Th and 9:00 a.m.-3:30 p.m. Friday. Make sure you arrive **before** 6:30 p.m. M-Th or 3:30 p.m. Friday. The Testing Center will not allow for late entry. Arrival before the door closes allows the student one hour and twenty-five minutes to complete the test.
- Students should complete exams as early as possible during the allotted time frame, since the Testing Center can get extremely busy in the afternoons.
- Your calculator memory may be viewed during any exam and will be cleared if anything suspicious is noted. The instructor has the right to regard finding suspicious material in your calculator memory as cheating.

Makeup exams: The instructor is not required to give a make-up exam. If a make-up exam is given for any reason, it will be more difficult than the original. Make every effort to take each exam on time.

However, students should be aware that non-attendance will NOT automatically result in their being dropped from the course. It is the student's responsibility to be aware of their registration status.
