

ARIZONA STATE UNIVERSITY
An Equal Opportunity/Affirmative Action Employer

OPEN POSITION

The School of Mathematical and Statistical Sciences (SoMSS) at Arizona State University (ASU) invites applications for a tenure-track or tenured position at any rank beginning in the Fall semester of 2010. Applicants are required to have a Ph.D. in the mathematical or statistical sciences, or in a related field, by August 10, 2010. SoMSS has a strongly interdisciplinary oriented research profile that includes numerous collaborations inside and outside the university, such as in the social sciences, education, physical sciences, engineering, biological sciences, environmental sciences, and medicine. We seek candidates whose research complements that of faculty in the School and/or other academic units at ASU that interface with mathematics. This may warrant an interdisciplinary or joint appointment. ASU has several initiatives that relate to the mathematical and statistical sciences, such as the Biodesign Institute, energy, sustainability, and climate. For more information on ASU and these initiatives, please see:

<http://www.asu.edu>

For more about the faculty and research of SoMSS, please see:

<http://math.asu.edu/>

We seek outstanding candidates who will become nationally and internationally recognized leaders in their fields. Candidates at the assistant professor level must also have demonstrated potential for excellence in research and teaching at all levels. Candidates at the tenured associate professor or full professor level must have demonstrated excellence in research and teaching at all levels, and should have experience advising graduate students. The successful candidate will be expected to conduct research and publish in the mathematical sciences or its applications, provide quality teaching of undergraduate and graduate courses, and participate in on-campus interdisciplinary activities and appropriate professional service.

The Tempe campus of Arizona State University has approximately 57,000 students. It is located in the rapidly growing metropolitan Phoenix area, which provides a wide variety of recreational and cultural opportunities. The School of Mathematical and Statistical Sciences currently has 57 full time faculty members and over 90 supported graduate students. Excellent computing resources are available in the School that include individual faculty workstations as well as access to the University's central computing facilities and the Fulton High Performance Computing Initiative.

Applications must be submitted online through <http://www.mathjobs.org>
All applications must include the following:

- 1) a curriculum vitae; 2) a personal statement addressing their research agenda; 3) a statement of teaching philosophy and 4) a completed AMS Standard Cover Sheet form.

At least four letters of recommendation must also be submitted at this site, including one that addresses teaching.

A background check is required for employment.

The initial deadline to apply is December 4, 2009 at 5:00pm in Arizona; if not filled, weekly thereafter until the search is closed.

Arizona State University is an affirmative action, equal opportunity employer committed to excellence through diversity. Women and minorities are encouraged to apply. The title IX statement can be viewed at: <https://www.asu.edu/titleIX/>.
